# HOLOCHIP

Software Development

Embedded Electronics

Optomechanical Design

AR Development Kits

Optical Engineering

Smart Cameras

Holochip provides engineering services and solutions for the simulation and training market with a focus on AR, advanced display systems, embedded electronics, optics, and software development.

HOLOCHIP

Simulator Display Systems

Light Field Displays

AR Devices

AI Image Analysis

Gesture Recognition

Environmental Mapping

Holochip provides engineering services and solutions for the simulation and training market with a focus on AR, advanced display systems, embedded electronics, optics, and software development.
